## Airtech Automation

[Airtech Automation](#)—an Airtech Equipment company— designs, programs, and installs building automation systems. Utilizing a custom animated 3-D graphical user interface, touch screen options, remote access, and control for any approved smart device, using Lynxspring, KMC, and our other equipment manufacturers and control systems.

## Building Automation

Automated control solutions for HVAC, lighting, and building or energy management systems.

## Integration

From open protocols to proprietary devices, we have the expertise to integrate your entire building into a single pane of glass.

## IAQ and Energy Management

Now more than ever, having the right partner to help you navigate indoor air quality concerns in your building and your building's energy consumption has never been more important. We offer turnkey solutions to offer you peace of mind.

[Airtech Automation](#) has provided intelligent building automation systems to all verticals around the world, with a focus on Michigan (*where we live*). From higher education to manufacturing to critical environments we offer many efficient solutions to keep you comfortable and safe. Visit our [Project Gallery](#).
